

## Allen's Landing Cruise

### **APRIL 14-15, 2018:**

This will be a cruise to what is sometimes described as “Houston’s Plymouth Rock” at it was there in 1836 that August Chapman and John Kirby Allen stepped ashore and claimed Houston as their own. This site, at the confluence of Buffalo and White Oak Bayous, also became Houston’s first port.

This cruise will take a lot of paper chasing to obtain the necessary permits and applications with the Mayor’s office, Coast Guard and Buffalo Bayou Partnership, but it should be well worth it for a unique trip up Buffalo Bayou to downtown Houston. For those that wish to join the cruise by land, you can make reservations at the nearby Marriott Icon or the Marriot Springhill Suites. If interested in attending this trip by boat, please let us know as soon as possible as there will be some paperwork that must be completed by each participant.
